NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of American National County Mutual Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the State of Texas Department of Insurance.

The Texas Department of Insurance recognizes only statutory accounting practices prescribed by the state of Texas for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under the Texas Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Texas. The state may adopt certain prescribed accounting practices that differ from those found in NAIC SAP.

C. Accounting Policy

В.

No significant change.

2) The Company has no investment in mandatory convertible securities or SVO identified investments. Bonds not backed by other loans, with NAIC ratings of 3-6, are stated at the lower of amortized cost or market value; all other NAIC ratings are stated at amortized cost using scientific interest method.

3-5) No significant change.

6) Loan-backed securities are generally stated at amortized cost using the retrospective method, except for those with NAIC designation 3-6 which are stated at lower of amortized cost or fair value.

7-13) No significant change.

D. Going Concern

Based upon its evaluation of relevant conditions and events, management did not have substantial doubt about the Company's ability to continue as a going concern.

NOTE 2 Accounting Changes and Corrections of Errors

No significant change.

NOTE 3 Business Combinations and Goodwill

No significant change.

NOTE 4 Discontinued Operations

No significant change.

NOTE 5 Investments

- A. Mortgage Loans, including Mezzanine Real Estate Loans No significant change.
- B. Debt Restructuring No significant change.
- C. Reverse Mortgages No significant change.

D. Loan-Backed Securities

- (1) Prepayment assumptions for mortgage-backed/loan-backed and structured securities were obtained from independent third party pricing services or internal estimates.
 - (2) At March 31, 2022, the Company did not have any securities within the scope of SSAP No. 43R, Revised Statutory Accounting for Loan-backed and Structured Securities, with a recognized other-than-temporary impairment due to the intent to sell or an inability or lack of intent to retain the security for a period of time sufficient to recover the amortized cost basis.

(3) At March 31, 2022, the Company did not hold any loan-backed and structured securities with a recognized credit-related other-than-temporary impairment.

(4)

- a) The aggregate amount of unrealized losses:
 - 1. Less than 12 Months
 - 2. 12 Months or Longer
- b)The aggregate related fair value of securities with unrealized losses:
 - 1. Less than 12 Months
 - 2. 12 Months or Longer
- (5) All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether an other-than-temporary impairment should be recognized. As of March 31, 2022, the Company believes it has the intent and ability to hold securities long enough to allow the cost basis of these securities to be recovered. Although the investment securities above did not meet management's criteria for other-than-temporary impairment at this time, it is possible that future events or information could cause them to conclude that declines in value are other-than-temporary.
- E. Dollar Repurchase Agreements and/or Securities Lending Transactions The Company has no repurchase agreements or securities lending transactions
- F. Repurchase Agreements Transactions Accounted for as Secured Borrowing The Company has no repurchase agreements transactions.
- G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing The Company has no reverse repurchase agreements transactions.

NOTE 14 Liabilities, Contingencies and Assessments

A.-F. No significant change.

G. All Other Contingencies

ANAT has agreed to certain covenants in the Merger Agreement restricting the conduct of its business between the date of the Merger Agreement and the earlier of the Effective Time and the termination of the Merger Agreement. The general effect of these covenants is that, during such interim period, ANAT will be limited in its ability to pursue strategic and operational matters outside the ordinary course of business. ANAT has agreed that it and its subsidiaries will conduct their business in the ordinary course consistent with past practice in all material respects and use reasonable best efforts to preserve their business organizations, goodwill and assets, keep available the services of their current key officers and employees, and preserve their present relationships with governmental entities and other key third parties, including customers, reinsurers, distributors, suppliers and other persons with whom the ANAT and its subsidiaries have business relationships.

In addition, ANAT has agreed to specific restrictions relating to the conduct of its business between the date of the Merger Agreement and the earlier of the Effective Time and the termination of the Merger Agreement, including, but not limited to, not to take (or permit any of its subsidiaries to take) the following actions (subject, in each case, to exceptions specified below and in the Merger Agreement or previously disclosed in writing to Brookfield Reinsurance as provided in the Merger Agreement or as consented to in writing in advance by Brookfield Reinsurance (which consent shall not be unreasonably withheld, delayed or conditioned)) or as required by law:

- subject to certain limited exceptions, offer, issue, sell, transfer, pledge, dispose of or encumber any shares of, or securities convertible into or exchangeable for, or options, warrants, calls, commitments or rights of any kind to acquire, any shares of capital stock or other voting or equity interests of any class or series of ANAT or its subsidiaries;
- amend or propose to amend ANAT's or its subsidiaries' certificate of incorporation, bylaws or other comparable organizational documents, in each case, whether by merger, consolidation or otherwise;
- authorize, recommend, propose, enter into or adopt a plan or agreement of complete or partial liquidation, dissolution, merger, consolidation, restructuring, recapitalization or other reorganization of ANAT or any of its subsidiaries;
- subject to certain limited exceptions (including permitting ANAT to execute investment portfolio transactions in the ordinary course of business consistent with past practice and in accordance with its existing investment plan and investment guidelines), acquire or agree to acquire any business or any corporation, partnership, association or other business organization or division thereof;
- make or authorize capital expenditures that are, on an individual basis, in excess of 110% of ANAT's capital expenditure budget or in excess of 105% of the
 aggregate capital expenditure budget, except for (i) planned capital expenditures disclosed to Brookfield Reinsurance at signing of the Merger Agreement
 and (ii) reasonable emergency capital expenditures (after consultation with Brookfield Reinsurance) necessary to maintain its ability to operate its
 businesses in the ordinary course or for the safety of individuals, assets or the environment;
- subject to certain limited exceptions, sell, lease, license, transfer, pledge, subject to any encumbrance or otherwise dispose of any of its or their assets or properties;
- incur, guarantee or assume any indebtedness, subject to certain limited exceptions, including investment portfolio transactions in the ordinary course of business consistent with past practice and other incurrences of indebtedness not to exceed \$10,000,000 in the aggregate;
- enter into any material contract or reinsurance contract other than in the ordinary course of business consistent with past practice; and
- terminate, amend, modify, assign or waive any material right under any material contract or reinsurance contract except in the ordinary course of business consistent with past practice.

(2) There were no Level 3 securities for the period ending March 31, 2022.

- (3) Transfers between levels, if any, are recognized at the beginning of the reporting period.
- (4) The market values of equity and debt securities are obtained by various pricing services. There has been no change in the valuation techniques and related inputs.

(5) The Company does not own any derivative securities.

В.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability. A fair value hierarchy is used to determine fair value based on a hypothetical transaction at the measurement date from the perspective of a market participant. An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. The input levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities. The Company defines active markets based on average trading volume for equity securities. The size of the bid/ask spread is used as an indicator of market activity for fixed maturity securities.

Level 2 - Quoted prices in markets that are not active or inputs that are observable directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities other than quoted prices in Level 1; quoted prices in markets that are not active; or other inputs that are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities include financial instruments whose values are determined using pricing models and third-party evaluation, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The Company has evaluated the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy level based upon trading activity and the observability of market inputs. Based on the results of this evaluation and investment class analysis, each price was classified into Level 1, 2, or 3.

Equity and fixed income securities are priced by independent pricing services. The pricing service utilizes market quotations for fixed maturity securities that have quoted prices in active markets. Since fixed maturities generally do not trade on a daily basis, the pricing service prepares estimates of fair value measurements for these securities using its proprietary pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. Additionally, the pricing service uses an Option Adjusted Spread model to develop prepayment and interest rate scenarios.

The pricing service evaluates each asset class based on relevant market information, relevant credit information, perceived market movements and sector news. The market inputs utilized in the pricing evaluation, listed in the approximate order of priority, include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, and economic events. The extent of the use of each market input depends on the asset class and the market conditions. Depending on the security, the priority of the use of inputs may change or some market inputs may not be relevant. For some securities additional inputs may be necessary.

The Company has reviewed the inputs and methodology used by the pricing service and the techniques applied by the pricing service to produce quotes that represent the fair value of a specific security. The review of the pricing service's methodology confirms the service is utilizing information from organized transactions or a technique that represents a market participant's assumptions. The Company does not adjust quotes received by the pricing service.

The pricing service utilized by the Company has indicated that they will only produce an estimate of fair value if there is objectively verifiable information available. If the pricing service discontinues pricing an investment, the Company would be required to produce an estimate of fair value using some of the same methodologies as the pricing service, but would have to make assumptions for market-based inputs that are unavailable due to market conditions.

The fair value estimates of most fixed maturity investments including municipal bonds are based on observable market information rather than market quotes. Accordingly, the estimates of fair value for such fixed maturities provided by the pricing service are included in the amount disclosed in Level 2 of the hierarchy.

Additionally, the Company holds a small amount of fixed maturities that have characteristics that make them unsuitable for matrix pricing. For these fixed securities, a quote from a broker (typically a market maker) is obtained. Due to the disclaimers on the quotes that indicate that the price is indicative only, the Company includes these fair value estimates in Level 3. The pricing of certain private placement debt also includes significant non-observable inputs, the internally determined credit rating of the security and an externally provided credit spread, and are classified in Level 3.

For public common stocks, the Company receives prices from a nationally recognized pricing service that are based on observable market transactions and these securities are disclosed in Level 1. For certain preferred stock held, current market quotes in active markets are unavailable. In these instances, the Company receives an estimate of fair value from the pricing service that provides fair value estimates for the fixed maturity securities. The service utilizes some of the same methodologies to price the preferred stocks as it does for the fixed maturities. These estimates for equity securities are disclosed in Level 2.

NOTE 21 Other Items

Α Unusual or Infrequent Items

On March 11, 2020, the World Health Organization formally declared the outbreak of the novel coronavirus COVID-19 to be a pandemic. Below is a summary of significant subsequent developments in our COVID-19 response:

We continue to take steps to protect employees with the goals of maintaining their health and sustaining an adequate workforce, including employees working from home and offering flexibility for employees negotiating scheduling conflicts due to the impacts of COVID-19, such as caring for family, alternative arrangements and shutdowns for business and schools, self-isolation or personal illness, including granting additional paid time off for vaccinations and to address these hardships. Additionally, we closely monitor and align with federal, state, and local health mandates for the protection of our onsite workers (masking, social distancing, etc.).

We suspended our summer Internship Program for 2020. In 2021, we piloted a hybrid program which combined virtual and in-person elements for a small group of interns. In 2022, we will offer a hybrid program for an expanded group of interns

We have recently updated return-to-office plans for our locations. Beginning in early April 2022, we began to gradually introduce more employees to our office locations. While some employees have positions requiring them to work onsite, others can work hybrid schedule, with their management team's approval.

Although we have been able to maintain our business operations since the onset of the pandemic, no assurance can be given that these actions will continue to be successful, nor can we predict the level of disruption that will occur should the COVID-19 pandemic and its related macroeconomic risks continue for further extended periods of time. Given this uncertainty, we are unable to quantify with reasonable confidence the total expected impact of the COVID-19 pandemic on our future operations, financial condition, liquidity and results of operations. The wide-ranging social, economic and financial consequences of the COVID-19 pandemic and the possible effects of ongoing and future governmental action in response to COVID-19 compound this uncertainty.

Additionally, as a result of the impacts of COVID-19, state insurance departments across the country issued regulations that required us not to cancel policies for non-payment for varying amounts of time but generally for at least 90-day periods which began in March and early April 2020. As of December 31, 2021, the cancellation and grace periods have been lifted in all states.

In 2020, we issued a 15% policy credit for our personal and commercial auto policyholders based on their April and May premiums, which amounted to approximately \$0.8 million. Additionally, we reduced premiums by providing credit or exposure adjustments to some of our property and casualty policies, in some cases pursuant to regulatory requirements

Thus far, throughout the pandemic, we believe we have successfully navigated the risks associated with COVID-19 and have been able to successfully maintain our business operations. However, as the pandemic continues, the extent to which COVID-19 impacts our business, results of operations, financial condition, or liquidity will depend on future developments which remain highly uncertain.

NOTE 24 Retrospectively Rated Contracts & Contracts Subject to Redetermination The Company's CA\$HBACK program refunds the policyholder 25% of the qualifying auto and homeowner premiums if the policyholder remains claim free for a period of three years. The Company estimates retrospective premium adjustments by the application of the historical ratio of return premium to original qualifying CA\$HBACK premium. This ratio is applied to the qualifying eligible CA\$HBACK premium to determine future retrospective return premium. The Company records construct return premium on on educations to company records accrued retrospective return premium as an adjustment to earned premiums.

NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

Net incurred losses and loss adjustment expenses attributable to insured events of prior years are unchanged in 2022. This is because all ANCMC loss and loss adjustment liabilities are ceded. Original direct estimates are increased or decreased as additional information becomes known regarding individual claims and such adjustments are included in current operations.
