#### NOTE 1 Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The financial statements of Pacific Property and Casualty Company ("the Company") are presented on the basis of accounting practices prescribed or permitted by the California Department of Insurance.

The California Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of California for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under California insurance law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the state of California. The state has implemented and adopted certain exceptions to the prescribed or permitted accounting practices found in NAIC SAP and the Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices (permitted practice). As of the date of this report, the Company has not implemented any such exceptions, has not requested permission for a permitted practice, nor been directed by the state of California to implement any accounting practice unique to the Company.

#### NOTE 20 Fair Value Measurements

Α

(1) Fair Value Measurements at Reporting Date

Not Applicable

| Description for each class of asset or liability | (Level 1) | (Level 2)  | (Level 3) | Net Asset Value<br>(NAV) | Total      |
|--|-----------|------------|-----------|--------------------------|------------|
| a. Assets at fair value<br>Bonds                 |           | \$ 481,320 |           |                          | \$ 481,320 |
| Total assets at fair value/NAV                   | \$ -      | \$ 481,320 | \$        | \$ -                     | \$ 481,320 |

There were no transfers between Level 1 and Level 2 fair value hierarchies.

- (2) There were no Level 3 securities for the periord ending March 31, 2020.
- (3) Transfers between levels, if any, are recognized at the beginning of the reporting period.
- (4) There were no investments in Level 1, 2 or Level 3. The market values of equity and debt securities are obtained by the Securities Valuation Office of the NAIC and/or various pricing servies. There has been no change in the valuation techniques and related inputs.
- (5) The fair value information for derivative assets is included in the above tables.
- B. Not Applicable
- C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

| Type of Financial Instrument | Fair Value    | Assets        | (Level 1) | (Level 2)     | (Level 3) | (NAV)     | Value)      |
| Bonds                        | \$ 89,847,377 | \$ 88,655,840 | \$ -      | \$ 89,847,377 |           |           |             |

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability. A fair value hierarchy is used to determine fair value based on a hypothetical transaction at the measurement date from the perspective of a market participant. An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. The input levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities. The Company defines active markets based on average trading volume for equity securities. The size of the bid/ask spread is used as an indicator of market activity for fixed maturity securities.

Level 2 - Quoted prices in markets that are not active or inputs that are observable directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities other than quoted prices in Level 1; quoted prices in markets that are not active; or other inputs that are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities include financial instruments whose values are determined using pricing models and third-party evaluation, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The Company has evaluated the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy level based upon trading activity and the observability of market inputs. Based on the results of this evaluation and investment class analysis, each price was classified into Level 1, 2, or 3.

There are some equity and fixed income securities whose market price is obtained from the Securities Valuation Office (SVO) of the National Association of Insurance Commissioners. For those securities that are not priced by the SVO, the price is obtained from independent pricing services.

The pricing service utilizes market quotations for fixed maturity securities that have quoted prices in active markets. Since fixed maturities generally do not trade on a daily basis, the pricing service prepares estimates of fair value measurements for these securities using its proprietary pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. Additionally, the pricing service uses an Option Adjusted Spread model to develop prepayment and interest rate scenarios.

The pricing service evaluates each asset class based on relevant market information, relevant credit information, perceived market movements and sector news. The market inputs utilized in the pricing evaluation, listed in the approximate order of priority, include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, and economic events. The extent of the use of each market input depends on the asset class and the market conditions. Depending on the security, the priority of the use of inputs may change or some market inputs may not be relevant. For some securities additional inputs may be necessary.

The Company has reviewed the inputs and methodology used by the pricing service and the techniques applied by the pricing service to produce quotes that represent the fair value of a specific security. The review of the pricing service's methodology confirms the service is utilizing information from organized transactions or a technique that represents a market participant's assumptions. The Company does not adjust quotes received by the pricing service.

The pricing service utilized by the Company has indicated that they will only produce an estimate of fair value if there is objectively verifiable information available. If the pricing service discontinues pricing an investment, the Company would be required to produce an estimate of fair value using some of the same methodologies as the pricing service, but would have to make assumptions for market-based inputs that are unavailable due to market conditions.

The fair value estimates of most fixed maturity investments including municipal bonds are based on observable market information rather than market quotes. Accordingly, the estimates of fair value for such fixed maturities provided by the pricing service are included in the amount disclosed in Level 2 of the hierarchy.

Additionally, the Company holds a small amount of fixed maturities that have characteristics that make them unsuitable for matrix pricing. For these fixed securities, a quote from a broker (typically a market maker) is obtained. Due to the disclaimers on the quotes that indicate that the price is indicative only, the Company includes these fair value estimates in Level 3. The pricing of certain private placement debt also includes significant non-observable inputs, the internally determined credit rating of the security and an externally provided credit spread, and are classified in Level 3.

For public common and preferred stocks, the Company receives prices from a nationally recognized pricing service that are based on observable market transactions and these securities are disclosed in Level 1. For certain preferred stock held, current market quotes in active markets are unavailable. In these instances, the Company receives an estimate of fair value from the pricing service that provides fair value estimates for the fixed maturity securities. The service utilizes some of the same methodologies to price the preferred stocks as it does for the fixed maturities. These estimates for equity securities are disclosed in Level 2.

The market value of derivative instruments is obtained by a broker (typically a market maker). Due to the disclaimers that the prices are indicative only, the Company includes these fair value estimates in Level 3.

#### NOTE 22 Events Subsequent

We are closely monitoring developments related to the COVID-19 pandemic to assess its impact on our business; however, due to the evolving and highly uncertain nature of this event, it currently is not possible to estimate the direct and indirect impact of COVID-19 on our business, results of operations, financial condition, or liquidity. COVID-19, or other major public health issues, could impact us in a number of ways including, the adverse impact on market volatility, the effect to our workforce which could impact the ability to conduct business, and the potential for an increase in claims and reinsurance costs. Further, we cannot predict how legal and regulatory responses to concerns about COVID-19 or other major public health issues, including the possible extension of insurance coverage beyond our policy language, will impact our business. We are continuing normal operations, but with a majority of our employees working remotely.

#### Liquidity:

The COVID-19 pandemic created significant economic uncertainty and volatility in the credit and capital markets beginning in March 2020, which has persisted. On April 13, 2020, the parent company, American National Insurance Company ("American National"), borrowed from the Federal Home Loan Bank of Dallas' COVID-19 Relief Advance Program. The net amount of the advance was approximately \$240 million after a required capital stock purchase of approximately \$10 million. The loan has an interest rate of 0.25% with a final maturity date of October 13,2020. On April 28, 2020, the Company took an additional advance from the Federal Home Loan Bank of Dallas. The net amount of the advance was approximately \$245 million after a required capital stock purchase of approximately \$5 million. The loan has an interest rate of 0.38% with a final maturity date of April 28, 2021. We are closely monitoring the effect of the COVID-19 pandemic on our operations and our customers. While we believe current capital is sufficient to support operations, American National took the advance from the FHLB in the event additional liquidity is needed for potential operational needs. Should American National require additional liquidity to respond to the effects of COVID-19, we currently have approximately \$622 million of additional credit available to us from the FHLB.

April and May Policy Credits for Personal Automobile Policyholders:

On April 14, 2020, American National announced a 15% credit for its personal automobile policyholders based upon their premiums for April and May. The credit is expected to affect approximately 20,000 of the Company's policyholders for an estimated \$1,000,000. We estimate that the monetary impact of these policy credits will be offset by a reduction in auto claims as policyholders drive fewer miles due to shelter-in-place orders.

Other:

In response to the impacts of COVID-19, state insurance departments across the country have issued regulations that require us to not cancel policies for non payment for varying amounts of time but generally for at least 60 day periods which began in March and early April 2020. As a result, we expect to see a reduction in the cash flows typically received from policyholders during these periods.

#### NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

Incurred losses and loss adjustment expenses attributable to insured events of prior years have decreased by \$309,000 in 2020. This change is the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims and such adjustments are included in current operations.

## SUPPLEMENTAL EXHIBITS AND SCHEDULES INTERROGATORIES

The following supplemental reports are required to be filed as part of your statement filing. However, in the event that your company does not transact the type of business for which the special report must be filed, your response of NO to the specific interrogatory will be accepted in lieu of filing a "NONE" report and a bar code will be printed below. If the supplement is required of your company but is not being filed for whatever reason enter SEE EXPLANATION and provide an explanation following the interrogatory questions.

|    |   | Response |
|----|---|----------|
| 1. | Will the Trusteed Surplus Statement be filed with the state of domicile and the NAIC with this statement?                         | NO       |
| 2. | Will Supplement A to Schedule T (Medical Professional Liability Supplement) be filed with this statement?                         | NO       |
| 3. | Will the Medicare Part D Coverage Supplement be filed with the state of domicile and the NAIC with this statement?                | NO       |
| 4. | Will the Director and Officer Insurance Coverage Supplement be filed with the state of domicile and the NAIC with this statement? | NO       |
|    | Explanations:   |          |
| 1. | Not applicable  |          |
| 2. | The Company does not transact in this type of business.   |          |
| 3. | The Company does not transact in this type of business.   |          |
| 4. | The Company does not transact in this type of business.   |          |
| 1. | Bar Codes: Trusteed Surplus Statement [Document Identifier 490]   |          |
